

PROFILE

INFINITE INNOVATION. QUADRATIC PRECISION.

We supply high-quality Industrial equipment, Pumps and HVAC equipment, and Engineering Services, that meet the needs of the industrial and construction sectors.

WHO WE ARE

PT. Qeequadrat Kreasi Optima (Q2KO) is an emerging industrial-equipment supply and engineering services company based in Indonesia. Founded with a vision to elevate the country's industrial ecosystem, Q2KO focuses on providing reliable, high-quality equipment and engineering services sourced from globally recognized manufacturers.

As Indonesia continues to expand its industrial and construction sectors, Q2KO positions itself as a trusted partner capable of delivering innovative solutions with meticulous precision—true to the company's commitment reflected in its tagline.

Q2KO was founded by Zaki Firdaus, B.Eng. (ITB), M.Eng. (ITB), Dipl. (PDJA Satellite - USA); who has more than 25 years of experience in various sectors as a technical and commercial leader.

**INFINITE
INNOVATION.**

WHY CHOOSE US

- 01 Strong Global Network:** We work toward becoming Indonesia's gateway to world-class industrial technology.
- 02 Customer-Centric Approach:** Every solution is tailored to industry requirements.
- 03 Efficient Procurement & Delivery:** Streamlined logistics ensure timely and reliable supply.
- 04 Technical Expertise:** Our team ensures proper product understanding and application support.

**QUADRATIC
PRECISION.**

OUR CLIENTS

With over 1200 employees worldwide, operating 13 manufacturing facilities on four continents, Armstrong Fluid Technology is known around the world as a leader and innovator in the design, engineering and manufacturing of intelligent fluid-flow equipment.

Droxo Tech's Autonomous Mobile Robot (AMR) solutions offer enhanced productivity, cost reduction, and improved yield and quality to businesses through our industrial unmanned vehicles.

Mactron is specializing in manufacturing of industrial laser equipment system and customized automation devices. It has obtained 22 patents and 12 copyrights, and has successfully passed European CE, US FDA, ROHS, RCM, and ISO 9001 QMS certifications. It operates in more than 30 cities in China and nearly 100 countries.

WHAT WE OFFER

INTELLIGENT FLUID-FLOW

Packaged HVAC Systems

Boosters

Optimization & Automation

Industrial Products

Commercial Pumps

Circulator Pumps

Heat Exchangers

Fire Safety

Accessories

Intelligent Fluid-Flow Equipment: Fluid-flow equipment plays a critical role in maintaining efficient operations in commercial buildings, industrial facilities, and HVAC systems. Modern buildings and manufacturing facilities require reliable equipment capable of supporting cooling systems, water circulation, pressure management, and fire protection systems.

WHAT WE OFFER

ROBOTIC MAINTENANCE FOR STORAGE TANKS

Smart Inspection Robot

Scraping & Cleaning Smart Robot

Spraying Intelligent Robot

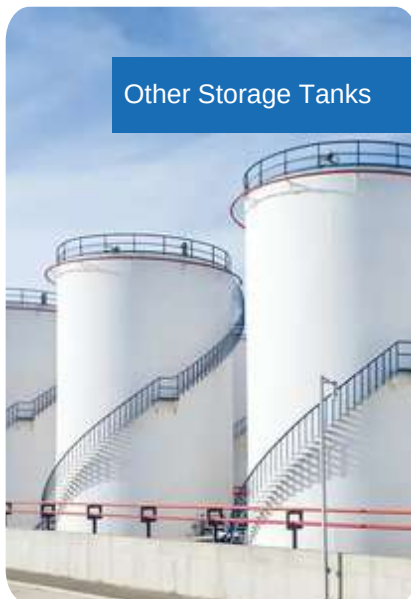

Robotic Maintenance for Storage Tanks: series of intelligent robots is designed for storage tank maintenance, providing solutions for various tasks like non-destructive testing, water jet scraping, and painting. It eliminates the need for expensive scaffolding, saving time & costs. Operators perform tasks safely from ground level, reducing fall risks.

We offer end-to-end services, including inspection, rust removal, and spray painting, seamlessly conducted online for uninterrupted operations and flexible scheduling.

Ideal for:

Petrochemical Tanks

Other Storage Tanks

Large Vessels

WHAT WE OFFER

BIO-DIESEL/DIESEL FILTRATIONS

Filtration Unit

Portable Filtration Unit

Onsite Filtration Services

Reliable Diesel Transfer Solution: is designed to provide fast, safe, and reliable diesel fuel transfer for industrial applications. Built around the trusted Gear Pump, this compact unit combines durability, portability, and ease of maintenance. The integrated protective stainless steel frame allows operators to transport the unit safely while protecting critical components during field operation. Ideal for transferring diesel from storage tanks to mobile equipment, generators, construction machinery, or service vehicles.

Features: compact portable design, heavy-duty stainless steel frame, reliable Gespasa transfer pump, mechanical flow meter option, integrated bypass protection, easy maintenance, industrial-grade fittings, suitable for continuous operation.

Diesel Filtration Cart: is engineered to remove particulate contamination and free water from diesel fuel before it reaches critical equipment. Equipped with Racor FBO high-flow filtration technology and a heavy-duty Koshin gear pump, the system delivers reliable fuel polishing for storage tanks, transfer systems, and maintenance operations. Its modular frame provides easy access for filter replacement while integrated drain management minimizes fuel spillage during maintenance.

Features: Racor FBO high flow filter, water separation, fine particle removal, heavy-duty Gear pump, stainless steel construction, mobile cart design, industrial casters, lifting lugs, maintenance friendly layout, low pressure drop

WHAT WE OFFER

LASER SOLUTIONS

Customized Laser Machine

Laser Marking Machine

Laser Cutting Engraving Machine

Laser Welding Machine

Specialized Laser Equipment

Laser for Industrial Applications: As industries continue to adopt advanced manufacturing technologies, laser systems have become essential tools for marking, cutting, engraving, welding, cleaning, and customized production processes. Designed to deliver high accuracy, consistency, and reliability, modern laser equipment helps businesses streamline operations while maintaining superior product quality.
